Ruby on Rails 5.x

Do início ao fim!

Cadastrando novos administradores

Cadastrando novos administradores

- Altere o arquivo **config/routes.rb**

```
namespace :admins_backoffice do
  get 'welcome/index' # Dashboard
  resources :admins,  except: [:delete] # Administradores
end
```

Cadastrando novos administradores

- Altere o arquivo **app/views/admins_backoffice/admins/index.html.erb**
  -
```
                <th>
                  <%= link_to new_admins_backoffice_admin_path, class:"btn btn-success btn-circle" do %>
                    <i class="fa fa-plus"></i>
                  <% end %>
                </th>
```

Cadastrando novos administradores

- Crie um arquivo **app/views/admins_backoffice/admins/new.html.erb** com o mesmo conteúdo de **app/views/admins_backoffice/admins/edit.html.erb**

Cadastrando novos administradores

- Crie as actions new e create no **app/controllers/admins_backoffice/admins_controller.rb**

```
    def new
      @admin = Admin.new
    end
...
```

Cadastrando novos administradores

```
    def create
      @admin = Admin.new(params_admin)
      if @admin.save
        redirect_to admins_backoffice_admins_path, notice:
  "Administrador cadastrado com sucesso!"
      else
        render :new
      end
    end
```
