

# Ruby on Rails 5.x

*Do início ao fim!*

# **Fazendo a pesquisa funcionar**

# Fazendo a pesquisa funcionar

- Altere o controller `app/controllers/site/search_controller.rb`

```
def questions
  @questions = Question.includes(:answers)
                      .where("lower(description) LIKE ?",
                            "%#{params[:term].downcase}%")
                      .page(params[:page])
end
```

# Fazendo a pesquisa funcionar

- Adicione no final da partial...  
**app/views/site/shared/\_questions.html.erb**

```
<div class="text-center">  
  <%= paginate @questions %>  
</div>
```
