

Ruby on Rails 5.x

Do início ao fim!

Trabalhando com data

Trabalhando com data

- Opção 1...

app/views/users_backoffice/profile/edit.html.erb

```
<%= profile_form.date_field :birthdate,  
class:"form-control col-md-7 col-xs-12" %>
```

Trabalhando com data

- Opção 2... **Adicione a biblioteca jquery-ui**
- <https://jqueryui.com/datepicker/>
- <https://yarnpkg.com/pt-BR/package/jquery-ui>

```
yarn add jquery-ui
```

Trabalhando com data

- Adicione nos assets o JS...

app/assets/javascripts/users_backoffice.coffee

```
//= require jquery-ui/ui/widgets/datepicker
```

```
//= require jquery-ui/ui/i18n/datepicker-pt-BR
```

Trabalhando com data

- Adicione nos assets o CSS...

app/assets/stylesheets/users_backoffice.scss

```
*= require jquery-ui/themes/base/theme
```

```
*= require jquery-ui/themes/base/datepicker
```

Trabalhando com data

- Altere a view...

app/views/users_backoffice/profile/edit.html.erb

```
<%= profile_form.text_field :birthdate, value:
1(@user.user_profile.birthdate), class:"form-control
col-md-7 col-xs-12 datepicker" %>
```

Trabalhando com data

- Adicione no layout.

app/views/layouts/users_backoffice.html.erb

```
<%= javascript_tag do %>
  $(function() {
    $('.datepicker').datepicker();
  });
<% end %>
```
