

# Ruby on Rails 5.x

*Do início ao fim!*

# Usando Scopes

# Usando Scopes

- Scopes

<https://api.rubyonrails.org/classes/ActiveRecord/Scoping/Named/ClassMethods.html#method-i-scope>

# Usando Scopes

- Altere o model

**time\_to\_answer/app/models/question.rb**

```
# Scopes
scope :_search_, ->(page, term) {
  includes(:answers)
  .where("lower(description) LIKE ?", "%#{term.downcase}%")
  .page(page)
}

scope :last_questions, ->(page) {
  includes(:answers).order('created_at desc').page(page)
}
```

# Usando Scopes

- Altere o controller

**app/controllers/site/search\_controller.rb**

```
def questions  
  @questions = Question._search_(params[:page], params[:term])  
end
```

# Usando Scopes

- Altere o layout **app/views/layouts/site.html.erb**, linha 37

```
<%= link_to 'Time to Answer', root_path, class:"navbar-brand" %>
```
