# Ruby on Rails 5.x

Do início ao fim!

- Validações condicionais
  - https://guides.rubyonrails.org/active\_record\_validations.html#conditional-validation

Altere o controller...
 app/controllers/application\_controller.rb

```
before_action :set_global_params

def set_global_params
    $global_params = params
end
```

Altere o model...time\_to\_answer/app/models/user.rb

```
validates :first_name, presence: true, length: { minimum:

}, on: :update, unless: :reset_password_token_present?

def reset_password_token_present?
  !!$global_params[:user][:reset_password_token]
end
```
