MVC

Boa prática para o MVC

● Altere **app/views/admins_backoffice/questions/shared/_form.html.erb**

```
<div class="form-group">
  <%= form.label :subject_id %>
  <%= form.collection_select(:subject_id, @subjects, :id, :description, {}, {
class:"form-control" }) %>
</div>
```

Boa prática para o MVC

- Altere **app/controllers/admins_backoffice/questions_controller.rb**

```
before_action :get_subjects, only:[:edit, :new]

def get_subjects
  @subjects = Subject.all
end
```
